

BURGLARIES IN THE SAWYERWOOD AREA

Recently we have taken several burglary reports for our residents in the Sawyerwood area. These reports range from thefts from storage sheds to houses.

Burglary victims often feel vulnerable and violated as their personal space has been invaded. Residential burglaries statistically occur during the day while families are at work or school. The most common entry technique is a hard kick to the door, forcing the wooden jamb to give way. Household tools like hammers, screwdrivers, pry bars and pliers may be used to gain entry into your home.

Unfortunately, it is hard to catch burglars in the act and harder to catch them after the fact. While residential burglaries seem random in nature, there is a simple selection process. Unoccupied homes with easy or concealed access and quick escape routes are targeted. Once inside burglars look for small expensive items that are easily traded for cash. Favorite items include cash, jewelry, laptops, CD/DVD players, game consoles, watches, guns and small electronic devices.
